Secure Computer Systems I: Responsible use agreement

The course USB stick and the penetration test network are provided for educational purposes only, in the course *Secure Computer Systems I* at Uppsala University. You may not use the material provided in the course to perform penetration testing on any other networks/computers/web sites.

Student responsibilities

- I understand that I may only use the USB stick for the assignments in the course.

- I understand that the penetration testing tools may only be used on the penetration test network as per instructions, and nowhere else.

- I understand that I may not sell the USB stick, or loan to anyone else except by explicit instructions.

- I understand that I may not give the VPN login credentials to anyone else.

- The USB stick must be returned by December 22, unless an extension has been granted.

- If the stick is lost or missing I will replace it with an identical stick.
